# KENWORTH W900L *Patented* AK LITE

## KIT APPLICATION

BODY OVER FRAME

ELBOW PATENTED AK LITE

YEARS DPF FIT 2007 - 2010

DEF EQUIPPED 2011 - 2017

DEF EQUIPPED 2018+

## KIT PART NUMBER

8" - 5" KW9AK-DPF85CP

8" - 5" K W W - A K 8 5 C P

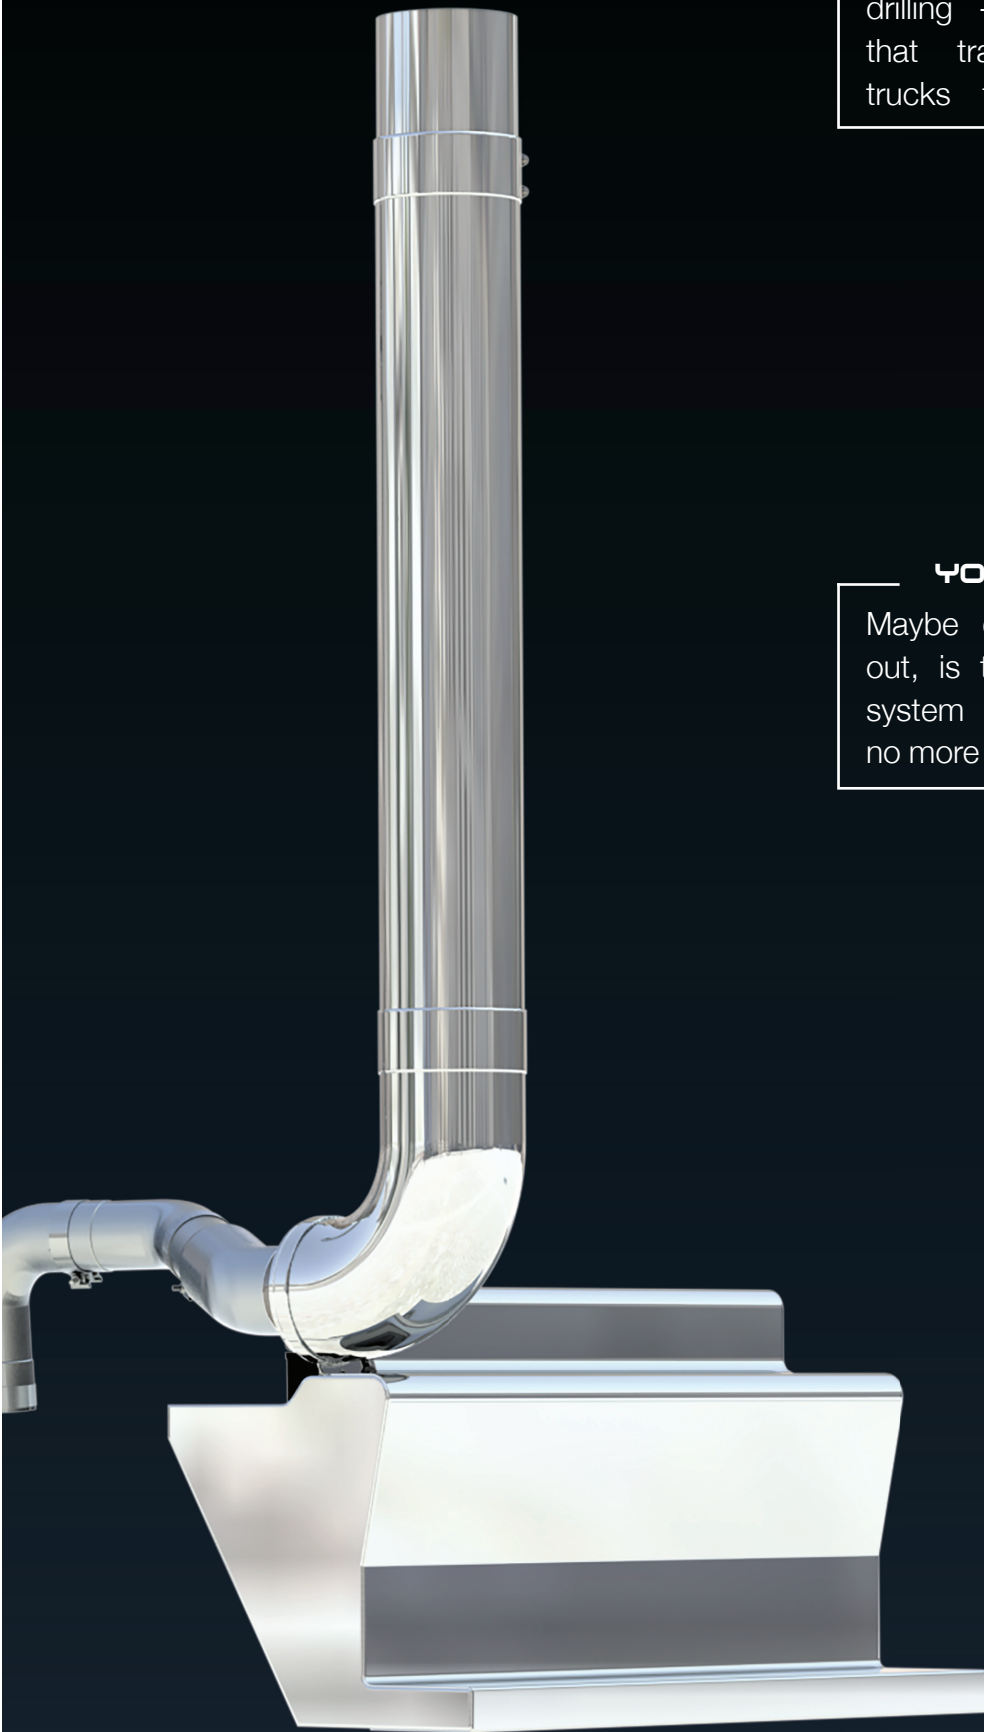

8" - 5" K W W 1 8 - A K 8 5 C P

## REAL KITS

These kits are the real deal - patented AK chrome pipework - complete bracket kit - super bright 304 stainless steel replacement box covers - no drilling - no fabrication - quality bolt on parts that transform new emission W900L model trucks from good looking to show stoppers.

## YOUR NEW FAVORITE HEAT SHIELD

Maybe even bigger than the fact we figured it out, is the fact your new Original Monster Stack system acts as a heat shield. No more tickets, no more burns, no more baked on bugs - just chrome.

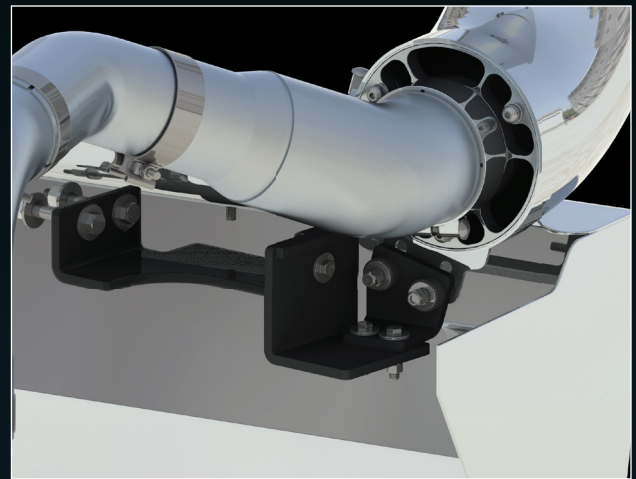

### **CUSTOM MACHINED GYRO ADAPTER**

The re-engineered 50 series sliding bracket | clamp just got another hot new face lift for it's AK launch, the new custom machined gyro adapters. Available for purchase separate for pre-emission systems, these sturdy, epic looking parts are included in this kit and are a critical component to not letting your system be supported, mounted, or even touching anything potentially made in China. Another superior offering exclusively available from Dynaflex Products.

### **PATENTED TECHNOLOGY**

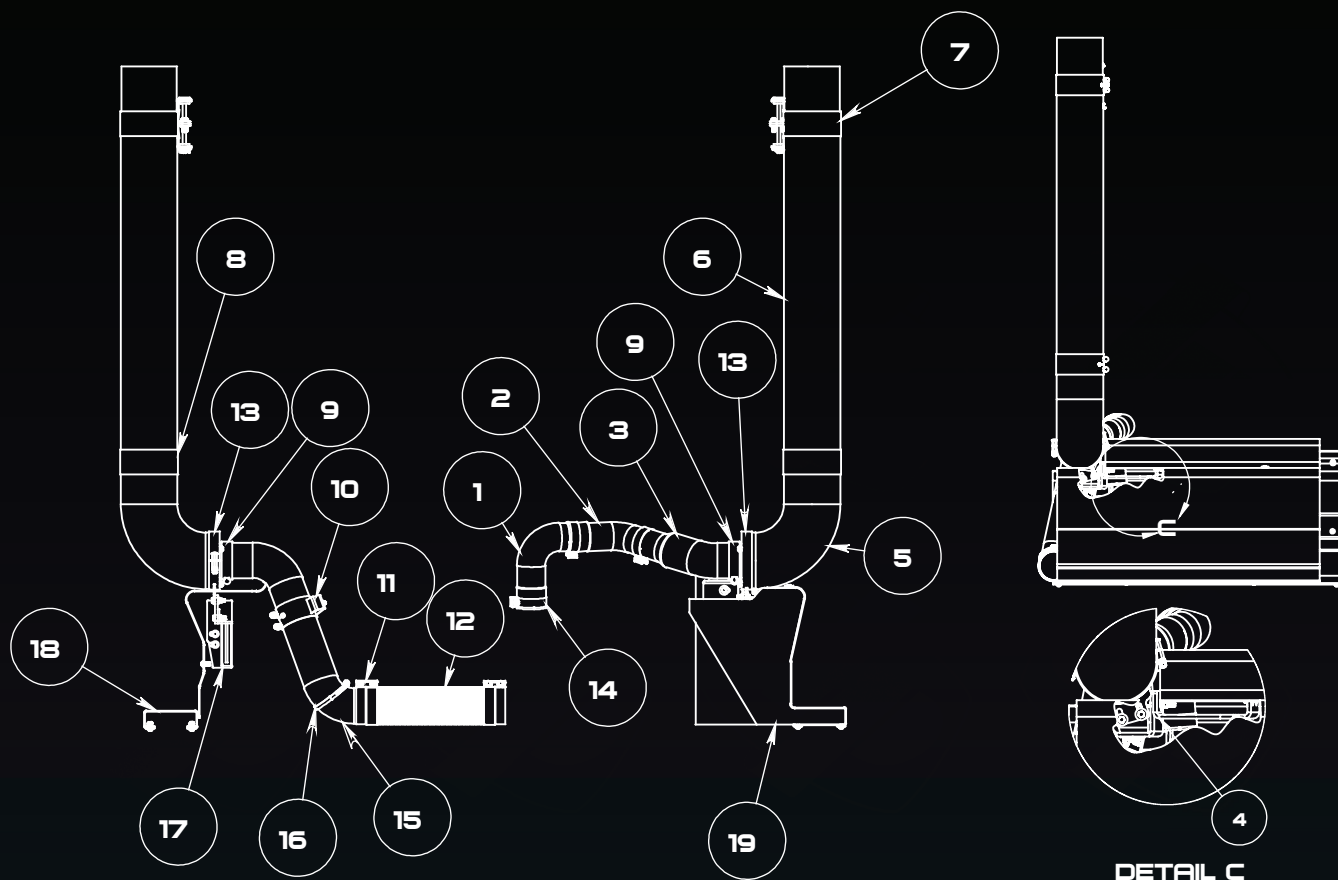

Patented - as the new product development team for the whole industry we knew that our solution for these tricky new emission trucks needed to be protected in a major way. Three years, 1000 emails, 50 different test pieces and a bunch of green later and we have our "try and copy us now" stamp from the US of A.

### **BOLT ON BOX AND BRACKET SOLUTION**

When we started tearing into the new emission W900's, one thing was clear right away - these brand new patented exhaust systems were going to need new stainless box parts to make it to market. This was intimidating for two main reasons (1) we've never made a box (2) when we bring anything to our customers you know it must be the highest quality option available in the industry. Some new equipment, fresh concepts and a bunch of scrapped parts later these new W900 systems are a two for one - upgrade the look of your truck in a major way with the only option for new emission W900's.

**BILL OF MATERIALS**

ITEM	PART NUMBER	DESCRIPTION	QTY.
1	14ZKW-85031AZ	DEF W900L   RIGHT SIDE 4" POST Y-PIPE ELBOW	1
