HEAVY DUTY SYSTEMS

## PowerPro<sup>®</sup> & PowerPro<sup>®</sup> Extreme Starters

PowerPro<sup>®</sup> and PowerPro<sup>®</sup> Extreme high-torque heavy duty starters feature exclusive technologies that help reduce operating costs, increase production and decrease downtime.

## PowerPro® 7 Starters

Media not found

### Product Highlights (PowerPro® 7 Starters)

#### Overcrank Protection (Optional)

Protects the motor in any operating condition for a reliable start anywhere, any time

#### Robust Armature Design

Reduces power losses & provides higher reliability for more consistent performance

#### Heavy Duty Brush Plate

Improves performance through increased surface area & better conductivity

#### High Power Rating

Faster, more efficient crank & source of power

#### Soft Start Relay

Helps eliminate ring gear damage

#### Integral Magnetic Switch (IMS)

Helps eliminate voltage drop issues by minimizing wiring between the relay & solenoid

#### Sealed Nose Housing

Adds service life & protects internal components

#### Performance eCoating

Superior corrosion resistance\*\*

#### Rotatable Flange

Ideal for reduced inventory & maximum profit opportunities\*\*

\*\* eCoating and Rotatable Flange not available on M110608

## PowerPro<sup>®</sup> Extreme 5 Starters

Media not found

### Product Highlights (PowerPro<sup>®</sup> Extreme 5 Starters)

#### Robust Armature Design

Reduces power loss & provides higher reliability for more consistent performance

#### Soft Start Relay

Ensures positive pinion engagement with the flywheel & reduces potential for ring gear damage

#### Integral Magnetic Switch (IMS)

Helps eliminate voltage drop issues by minimizing the ring distance between relay & solenoid

#### Fully Sealed Noseless Design

Adds service life & protects internal components

### General Production Information

#### Warranty Information
